MATERIALS

All materials are chosen specially for outdoor use to suit both contract and residential applications. All products are 3 years guaranteed, but many of our contract and residential customers have been using our products outdoor for over 12 years.

The fabrics are solution dyed with high fade resistant quality, which are available to be cleaned with bleach, and the fabric colors will remain steadfast. Although fabrics are durable, they are soft to the touch.

The wickers are high-density polyethylene resin, which have high suppleness, tear resistance, UV resistance, weather resistance, and are non-toxic and friendly to the environment. They are also antimicrobial, a quality that prohibits the growth of fungus and mildew.

The ropes are made from either high strength polyester yarn, or 100% acrylic fibres. The rope fibres guarantee a lasting high tension and provides an excellent resistance to all weather conditions. The rope dries quickly and is stain repellent, which is easy to clean and maintain.
